## GEAR TO GO

### LIGHT YOUR COOLER

Only in Canada you say? Coghlan's, a Winnipeg company that makes camping gear, has just come out with a light for inside the lid of your cooler. Just like a fridge light, it goes on automatically when you lift your cooler lid. It dims and shuts off after 20 seconds. Sold only in Canada, it comes with three button cell batteries; \$8.99 at Canadian Tire, Wal-Mart, Mountain Equipment Co-op or LeBaron.
